

Fox Valley Unitarian Universalist Fellowship

Title:	Peanut-Safety Facility Policy
Document Type: (Policy, Procedure or Combined)	Policy
Contact/Policy Owner:	Christina Leone-Tracy, Senior Minister
Effective Date:	11/29/2017
Revision Date:	N/A
Approved By/Approval Date:	X-Team on 10/24/2017
Scheduled Review Date:	10/29/2018

In the interest of providing a safer environment for people, especially children, with severe environmental peanut allergies, the Fellowship will designate all common areas of the facility peanut-free. The exception to this policy will be the office wing and its kitchenette, where peanuts might be stored and/or consumed by staff. Any person or group who uses the Fellowship building (including all inside and outside spaces) is expected to abide by and help enforce this policy unless they have asked for and received written permission from the XT in advance of the event(s).

It is noted that the Fellowship is not a nut-free facility. This policy only extends to peanuts and products that contain peanuts, as they are considerably more dangerous as an environmental allergen (eg, if it's "in the air").
