

## I am an Acorn . . . Beth De Stasio

I am an acorn because my family was nurtured and loved in this Fellowship for many years. My children were supported and lovingly taught about world religions, human sexuality, and how to be a contributor to social justice by caring, thoughtful adults and by their peers. I am often humbled by the good work of the congregants of this Fellowship, you all inspire me every week. My husband and I wish to be sure that The Fellowship is here for others as it was (and is) for us.
