

I am an Acorn . . . Theresa Hannah

I am an acorn because I am aware of, and so grateful for, the people who started this Fellowship and nurtured it through years of growth before I arrived. A group of about 100 people agreed to take on a mortgage to purchase a building; then another group agreed to build another building and hire staff; all so that this wonderful organization would be here when I looked for it. And, I sorely needed this place when I finally realized it is here. I want to help the Fellowship continue to be here for future seekers.

I am an acorn because I have named the Fellowship's endowment as a co-beneficiary of a life insurance policy. This gift doesn't stop me from giving generously to support our annual operating budget; that is necessary to keep our organization running today. My legacy gift will be added with other funds to generate interest that will support future operating budgets; future expansions; future programs – perhaps things I can't even dream of today. I love that idea!
