

I am an Acorn . . . Bill Carlson

Lynn and I joined the Fellowship in 1984 when our three daughters were very young. They benefited greatly from the RE programs, especially Coming of Age and OWLS. We trusted the Fellowship wider community to help our daughters find their own spiritual paths, and our trust was totally justified!!!

Being an Acorn will help future families have similar opportunities!

As for my own spiritual path, being in the Partner Church movement and learning about our UU roots in Transylvania has been transformative. I did not know that one of the founders of our UU faith, Francis David, was martyred in a prison cell in the 1500's in the castle in Deva, Romania which happens to be our partner church over there! I also did not know that one of our nine founding members of our Appleton Fellowship, Christine Wise Morgan, was born in little Meszko in Transylvania... Her story is in our UU library in a book titled The Alabaster Village...

We will be forever grateful that we joined the Fellowship back in 1984.
